

## Scientist

**Description** - This is such a great badge to complete as its lots of fun. Make sure you ask an adult to supervise you before you start.

**Requirements** Do six science activities. You should choose two activities from each section. For each activity, explain or show your leader what you did and what you found out. Look at these sensational science activities to help you <https://www.scouts.org.uk/supporters/rollsroyce>. Don't forget to upload to badges at home on OSM or show them to your leaders at cub meetings.

### Section 1: reactions

- Show how vinegar reacts with different items and explain what happens. The different items could be steel wool, sodium bicarbonate or old dirty coins.
- Find out what happens when you add salt to water.
- Compare the density of water to the density of other liquids. Show how these liquids react to each other.
- Make a pH indicator solution. Use it to test the acidity or alkalinity of other liquids.
- Grow crystals.
- Another similar activity

### Section 2: interacting with energy

- Create a basic electrical circuit that includes a switch. Show how it could be used to control a lightbulb powered by a battery.
- Make an air-powered balloon rocket or a water rocket. Investigate ways of improving how far it can travel.
- Make a simple compass. Show the effects of metallic and magnetic materials upon it.
- Use marshmallows and spaghetti to build the strongest tower you can. Explain how you improved your design.
- Find a way to show that hot air rises.
- Another similar activity

### Section 3: living things

- Set up a wormery or ant colony. Record what happens over three or four weeks
- Investigate what happens to your pulse rate before, during and after exercise.
- Grow cress, beans, peas or a similar plant. Investigate what happens when the plant has no access to light. What happens when it has light, but no water?
- Find a way to show that plants take water up through their stems.
- Make some yoghurt and find out how living organisms are involved in the process.
- Another similar activity
